

Department of Otorhinolaryngology and Head Neck Surgery, GIMS

Why students should join **M.S.-ENT** at GIMS?

The department of Otorhinolaryngology and Head Neck Surgery offers the most innovative and updated treatment to the patients. The patients are diagnosed using the latest methods and technologies. It provides comprehensive care to patients.

1. **Experienced Faculty:**

- We have highly qualified and experienced faculty members from prestigious colleges across India.
- They are renowned nationally for their contributions to clinical care and research. They provide personalized mentorship and guidance to support clinical, surgical skills, academic and research activities.

2. **Clinical Care:**

- Average of 120-140 patients per day in the OPD.
- We ensure optimal and quality clinical in-patient services in the current 20-bedded ward.
- We run a multidisciplinary disease management group twice a week (Monday and Wednesday) which comprises of speciality clinics in Otolaryngology, Rhinology, Vertigo, Laryngology as well as Head and Neck Oncology after surgery in the OPD setting.
- Emergency services are offered round the clock.
- The department is well equipped with all the latest instruments for examination and treatment purposes.
- Advanced Audiology and Speech Rehabilitation centre.

3. **Well-Equipped Operation theatres:**

- The department runs four operation theatres weekly (Monday to Friday).
- It offers surgical treatment of ENT disorders from basic to advanced including cancer related to the domain of Otorhinolaryngology (Maxillectomy, Laryngectomy, Neck dissection, Glossectomy, Thyroidectomies, Mandibulectomy, etc.) for early and advanced oral, laryngeal, and other head and neck cancers also.
- Cosmetic and Facial plastic surgery.
- Laryngoscopy, Oesophagoscopy, Bronchoscopy for diagnostic and therapeutic.
- Advanced Maxillofacial trauma care
- Cutting-edge instruments with advanced equipment's (including Operating Microscope, Endovision system, Powered Instruments, Nerve monitor and Laser) are available in the department.
- Availability of number and variety of patients guarantees an excellent practical exposure to all the aspects of the subject.

4. **Temporal Dissection Laboratory:**

- A well established temporal bone dissection laboratory is present in the department.
- It gives hands-on learning for mastering surgical techniques, ensuring well-preparedness to perform surgeries with precision and expertise in clinical settings.

5. Continued Education:

- We organize and encourage participation in guest lectures, conferences and workshops.
- We offer opportunity for research with faculty and medical professionals in the field of Otorhinolaryngology and Head Neck Surgery.
